Applicant is advised that should claim 23 be found allowable, claim 53 or 62 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Applicant is advised that should claim 24 be found allowable, claim 63 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. one claim to object to the other as being a substantial duplicate of the allowed claim.

See MPEP § 706.03(k).

Claims 23-68 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term "a hydrolepis product or a metabolite" in claim 23-68 fails to find basis in the specification as filed. The only basis is for "thalidomide, its precursors, metabolites and analogs" (see page 14, line 19). The specification fails to set forth any other form of EM-138.
